Introducing the New MyBSWHealth App

Baylor Scott & White Health's mobile app, MyBSWHealth, has a fresh new look. The completely overhauled design enables you to manage your family's healthcare needs from a single place, and on the go. It's integrated with Scott and White Health Plan so your healthcare and insurance information is all in one place.

- **Find a physician the smart way.** Enhanced search capabilities allow you to find the right physician and schedule appointments with ease.
- **See your ID card.** Forgot your card? No problem. It's on your phone.
- **Track your deductible.** Keep tabs on how close you are to meeting your annual deductible.

- **Manage and refill your prescriptions** at a Baylor Scott & White pharmacy.
- **Check your claims.** See what's been billed, what's been paid, and how much you may owe.
- **Message your care team, view lab results and pay your bills.**
